The Syrinx Advantage

- › Syrinx has direct access to highly vetted technology professionals whom can work onsite at client offices nationwide
- › Our consultants have worked on large, Fortune 500 accounts with high levels of security and are proven assets, having worked for Syrinx on client sites for over ten years
- › We take a consultative approach to solving your technology needs; are highly flexible and act as a technology partner, with full accountability and local oversight
- › Our consultants are amongst the top talent in the industry and the majority of our clients end up working with them for additional and on-going projects long after the initial scope

Client Goals

- › Achieve faster development and speed-to-market
- › Gain access to industry and technical experience that accelerates the quality of development projects
- › Avoid costs associated with internal training and skill development
- › Extend their existing IT infrastructure to keep up with the rapid change in mobile and cloud computing technologies
